DESIGNER RANGE

Vision

Igloo

Cube

Beautiful to behold, architecturally flexible and environmentally friendly – the EcoSmart™ Fire has revolutionized the possibilities of open fireplaces. Choose from the free-standing Designer range, the EcoSmart™ Burner One, the Grate range or the Renovator range that can be used in almost any application.

Fueled by renewable energy (denatured ethanol), the EcoSmart™ Fire does not require a flue or a fuel connection and is virtually maintenance free. Available exclusively at Natural Stone Warehouse, the EcoSmart™ Fire makes the perfect partner for natural stone interiors.

- Designer range – modern, streamlined and innovative, the designer range comes ready to use in an inspiring, mobile piece of furniture that can either be freestanding, wall-fitted or corner-fitted.
- Grate range – The Grate Range provides a selection of fireplace inserts which incorporate the EcoSmart[™] burner in a simple traditional manner. Made of black steel, the grates are a great way of rekindling a close off open fire, or creating a unique fireplace feature – without the fuss.

Pioneers in the art of elegant living.
